ANCHOR BANDS

Ideal Solution
for
**Nurseries, Greenhouses,
Floral Designers, Vineyards,
& Landscapers**

Gentle on Plants

As the plants or saplings grow, our anchor bands will expand with them without needing to be adjusted. This saves you time and labor costs.

Easy to Use

Unlike traditional tie methods, there are no frustrating and time consuming knots to tie. Quick and easy application with no tools needed.

Environmentally Friendly

These innovative, biodegradable rubber ties are designed to “breakdown” after 12 to 18 months, depending on the amount of UV exposure.

Black Standard (UV Resistant) Anchor Bands

Size	Product Number	Approx. Count Per Bag	Price Per 5 lb. Bag	Dimensions* (mm)
Small	RDRB 108	2,485	\$35.00	40 x 3.5 x 1.5

Only \$7.00 per pound
standard (UV Resistant) black anchor bands

\$7.00

per pound for standard black
in four convenient sizes

Here's what one of our customers says...

"As an owner of a small vineyard, I am very attentive to detail and do all the vine work myself. Therefore I really appreciate the versatility that the anchor bands offer. I am able to place the vines on the wire where they need to go, and I'm also able to easily remove the bands as needed and never have to worry about them damaging my vines! I currently use 3 of the 4 sizes and realize how these anchor bands have greatly affected my productivity!"

L. Wilke of Wilke Vineyards

Good for Vines | Good for Bottom Lines

Anchor Bands aren't just for using with plants.

Our customers come from a wide range of industries....

Electronic Companies, Dry Cleaners, Public Relations Firms

...just to name a few.

They use anchor bands to...

Tag & Label Products, Secure Cables and Cords, Bundle Items

...and more.

How will you use your anchor bands?

If you are like most people, you don't really want a cheap product — you want a **quality product at an affordable price**. By purchasing our high-quality bands at affordable prices, you protect your margins by helping to protect your goods, produce, and products from being damaged.

Bundling bands created with our special Henrich formula will not bleed color, won't leave a residue, and are strong enough to provide a cushioned ride for bundles of lumber during shipping.

For more than 15 years, companies nationwide have been using Henrich **hinge bumpers** to protect pre-hung wooden doors from being damaged during shipping.

Because Henrich **standard (UV resistant) anchor bands** are good for plants and vines, they are good for nursery and vineyard bottom lines. No matter what business you are in — anchor bands are great for when you need to tag, secure, or bundle items. Plus, we offer **superior grade anchor bands** and **heat resistant anchor bands** for industrial and manufacturing applications.
